# EBZPR01

License Plate Recognition

The EBZLPR01 solution makes use of License Plate Recognition to automate your Access Control mechanism, enabling quick access to your premises. The screen comes equipped with a robot as well as voice prompts indicating when the driver can drive or halt. Residents, employees and even visitors can be pre-loaded, granting them access on arrival.

FEATURES

- Pre-load visitors
- Works offline
- Integrates with Access Control Software
- Full audit trail of events
- Black list functionality

SPECIFICATIONS

Recognition Rate	Day 99.9%; Night 99.7%
Recognition Distance	2-10 Metres (Recommend Distance is 3.5-4m)
Recognition Time	200ms (Average)
Communication	TCP/IP
Interface	2 Relay, 2 Aux. Input, Audio Input And Output, 2 485 Output, Reset, Wiegand Out
Camera Lens	2MP, Auto Focus, Best Snap Range: 3.5-4 Metres
Minimum Illumination	0.1Lux (Standard)
Standard Function	Automatic License Plate Recognition, Real-Time Information Display, Automatic Control Vehicle Barrier
Support Speed	15km/h
Power Consumption	80W
Power Supply	220V AC 50Hz
Operating Temperature	-20°C - +55°C
Relative Humidity	10%-90%
Weight	30Kg
IP Rating	IP65
