

EBZFP830

Extreme Weather Facial & Palm Verification Terminal

The robust Facial Verification Terminal is ideal for extreme weather conditions and caters for either Facial or Palm Recognition.

FEATURES

- Facial recognition within 0.3 seconds
- Anti-spoofing protects against photos, videos and masks of faces
- Outdoor facial recognition works at a distance of 2m
- Card reader
- 2MP starlight CMOS sensor camera with WDR function, enabling the terminal to recognize faces under poor lighting conditions
- Supplement light with adjustable brightness
- 8" touch screen with 400 lux
- Wide range of working temperature
- IP68 dust and waterproof standard and IK4 protection standard

SPECIFICATIONS

Capacity	Faces: 30,000 (50,000 optional) Cards: 50,000 Palm: 5,000 Transactions: 1,000,000 User Photos: 30,000 Event Photos: 20,000
Distance Detection Sensor	Yes
Hi-Fi Voice	Yes
Reset Button & Tamper Switch	Yes
Communication	TCP/IP, RS485, RS232, Wi-Fi
Working Temperature	-30°C ~ 60°C
Working / Storage Humidity	93%
Storage Temperature	-40°C ~ +65°C
Net Weight	853g
Dimensions	227mm x 143mm x 26mm (H x L x D)
Operating Voltage	12V DC
Current Draw	< 2000mA
